Weed Mapping Application
Channeled Scablands Cooperative Weed Management Area's Weed Mapping App

The CWMA is working to reduce and control the invasive weeds throughout the CWMA boundaries in Spokane, Whitman, and Lincoln counties. Through the help of the landowners in the area, the CWMA hopes to implement the Weed Mapping App to better determine where the invasive weeds are, and to get a head start in controlling them.

Requires a smartphone, tablet, or media player with a minimum of Android 2.2 (ARM) or iOS 6.1

If you are leading a group, please click here for group login information

Follow these instructions to install and
set up CitSci Mobile on a iOS phone

1. Go to
the app
store

2. Search
CitSci and
select the
app

3. Install
the app

4. Launch
the App

5. Enter
Log in Info
and Hit
Save
Settings

4a. If you are part of a weed
mapping group ask your
group leader for a login

4b. If you are not part of a
weed mapping group follow
the instructions on this slide
to make a new login

Follow these instructions create a CitSci account and join the weed mapping project

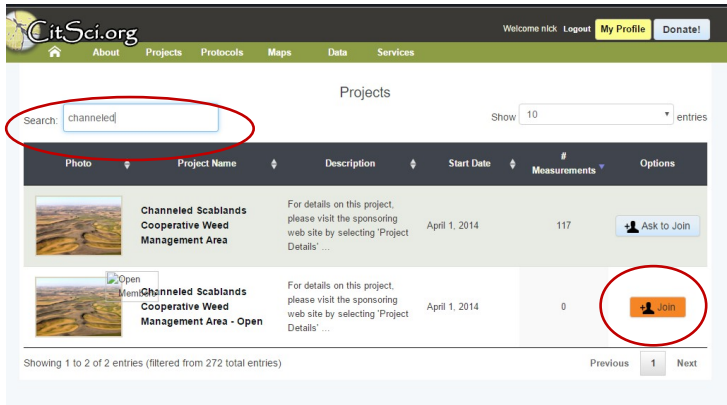

1. Go to citsci.org and click the Sign Up! button

2. This screen will come up next just fill in the required information

3. Click the projects button on the top of the screen

4. In the search bar search: channeled Click Join and you're all set!

Follow these instructions create a Email account for you're group

If you want to take a group of people out to map weeds we require that every person has a Citsci account or you all share one CitSci account and every account requires a valid email.
Follow these steps to make the email and a Citsci account for your group.
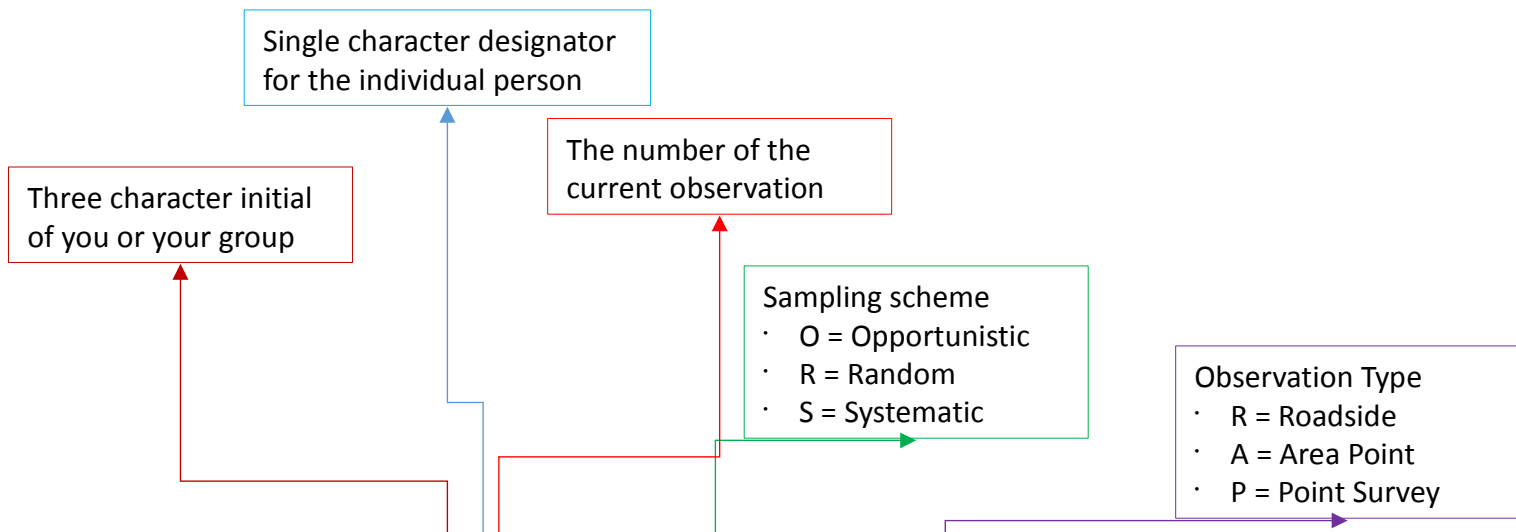

Step 1: create the email address

1. Fill in The first and last name field to whatever you want
2. Fill in what you want the username to be. (Try to make it something relevant and easy to remember. The example uses cwmaStudent1 because this is for a class of students)
3. Make a easy password that can be used for this account and every account you make after.
4. Put a reasonable birthday (Any date before 2000 but after 1900)
5. Select a gender (It does not matter what you pick)
6. Skip Mobile phone and Your email address fields
7. Do the verification
8. Be sure to check the box with the terms and conditions and hit next step

You are all done! Do this for however many are in your group

Continue to creating Citsci accounts on this slide

If you plan on sharing one account with the whole group, After creating the CitiSci account follow the instructions on this slide to learn how to help identify individual group members

When logging in an entry for a weed in the name field please follow these instructions
Single character designator for the individual person

The number of the current observation

Three character initial of you or your group

Sampling scheme
· O = Opportunistic
· R = Random
· S = Systematic

Observation Type
· R = Roadside
· A = Area Point
· P = Point Survey

Location Information

Name   kioa1op

Latitude   48.25575

Longitude   -117.2828

Accuracy   24.0
